

Storm Drain Stencils

Only Rain, in the Stormdrain

Your business can help reduce stormwater pollution!

Stencil the storm drains on your property and educate your employees and visitors about pollution prevention. Distinguish your business as being environmentally conscious.

The improper use of the storm drain system is a major source of Bay and Ocean pollution. Oil and grease spills at commercial facilities, leaking fluids from cars & trucks, and illegal dumping of wastes all introduce contaminants into the storm drain system that enter creeks, the Bay, and ocean, without any treatment.

Your employees may not realize that the storm drain is not for waste disposal. A stencil may prevent an employee from inadvertently dumping a pollutant into the storm drain, causing an illicit discharge, harming the environment, and exposing your firm to legal liability and cleanup costs.

The Countywide Stormwater Program will provide your business with a free stencil kit! All you add is the painter and the paint.

To obtain a free storm drain stencil kit, and for information on what you can do to protect the Bay and ocean, contact your local stormwater agency:
